**ELECTRAVALVE® ROUGH-IN KIT**

With the introduction of the new Vaculine® Push-Fit Plaster Guard (P/N 765543BLK), there was a need to revise the existing part number for the ElectraValve® Rough-in Kit. The present kit contains the gray plaster guard, P/N 765546, and many of our customers would now prefer to use the new black plaster guard, P/N 765543BLK.

As of today, when ordering the ElectraValve® Rough-in Kit, with the traditional GREY Plaster Guard (P/N 765546), continue to use the existing part numbers, as shown below.

**Rough-In Kit, with Gray Plaster Guard**

PART NUMBER	DESCRIPTION	CARTON QTY	
775594-12-6	12 AWG, 6 foot cord – Gray Plaster Guard	16	
775594-12-14	12 AWG, 14 foot cord – Gray Plaster Guard	16	
775594-14-6	14 AWG, 6 foot cord – Gray Plaster Guard	16
